His Majesty
King Hamad
The king
of the Kingdom of Bahrain

His Royal Highness
Prince Salman
Deputy Supreme Commander
and First Deputy Prime Minister

His Royal Highness
Prince Khalifa
Prime Minister
of the Kingdom of Bahrain

His Majesty
King Hamad
The King
of the Kingdom of Bahrain
Foreword by the Minister

It gives me great pleasure to introduce this first student guide to higher education in the Kingdom of Bahrain.

A key policy for the Higher Education Council is to give students up to date information, advice and guidance about higher education in the Kingdom of Bahrain. This comprehensive and up to date student guide will give students and parents all the key facts that they need to choose the most appropriate course that is available for enrolment in the academic year 2013-2014.

The Higher Education Council is committed to giving students the best possible education and this student guide is one of several key projects that we will deliver to improve standards in higher education in the kingdom of Bahrain.

Dr. Majid bin Ali Al Nuaimi
Minister of Education
Higher Education Council
Chairman
Introduction

The Higher Education Council wants to help students understand what courses are available to them at university and how these courses can help students achieve their goals. Our ambition is to improve the quality of information that students receive about higher education choices.

This guide brings into one place all current available courses in private universities that are available for enrolment during the summer 2013. It covers key information such as entry requirements, course contents, fees and career prospects.

Students should also visit the QAAET website for reports and confidence ratings of programs http://en.qaa.bh

Our hope is that school, students and parents make choices based on the best possible information with the facts available in one place. Our aim will be to keep this guide up to date and readily available on our website.

Prof Riyad Hamzah
General Secretary
Higher Education Council
Established in 1986, University of Bahrain (UoB) is the only national university in the Kingdom of Bahrain, with a history that dates back to the 1960s. With a total area of 156,607 m², University of Bahrain is comprised of 10 colleges.

**Public Institutions**

- College of Arts
- College of Business Administration
- College of Engineering
- College of Information Technology
- College of Law
- College of Science
- College of Applied Studies
- Bahrain Teachers College
- College of Physical Education and Physiotherapy
- College of Health Sciences

For full information on courses and entry requirements available visit:

AHLIA UNIVERSITY
Programmes Available

www.ahlia.edu.bh
INTRODUCTION:
This course is designed to provide the students with knowledge and learning means of the various areas of accounting. Besides the theory, the course will also introduce the students to the practical side of accounting thus preparing them for the real-life work and practice. This will be backed by field trips to different industries and business.

Over four years, the course will gradually introduce the students to different fields of accounting within the following main areas:

- Financial Accounting
- Managerial Accounting
- Auditing

The first and second years of the course will have strong emphasis on the principals and intermediate accounting, while the following two years will concentrate on the advance, theoretical and international areas of accounting. During these years, students will also be exposed to managerial accounting which introduce them to management and decision making. This will include case studies, visiting speakers and real-life assignments.

The students will also be introduced to the general standards of accounting, including the IFRS.

ENTRY REQUIREMENTS AND FEES:
- An applicant normally should hold a recently issued recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

FEES
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2: BD 110 per credit;
Year 3: BD 120 per credit;
Year 4: BD 130 per credit
Introduction:
Bahrain is considered the hub of banking and financial services in the GCC countries. These financial services are highly competitive and rapidly changing not only in Bahrain but also in every modern economy. The program is structured around the two fields of banking and finance. The BSBF degree has a very high banking component (Conventional as well as Islamic) within it and there is a direct application of economics and finance to banking. Finance is the study of how investors allocate their assets over time under conditions of certainty and uncertainty. A key point in finance, which affects decisions, is the time value of money, which states that a unit of currency today is worth more than the same unit of currency tomorrow. Finance aims to price assets based on their risk level, and expected rate of return.

The aims of the Banking and Finance Programme at Ahlia University are:
- To provide a high-quality undergraduate Banking and Finance education that serves the needs of Bahrain and the global market.
- To achieve excellence enhanced by research and interaction with the financial related fields.

Entry Requirements and Fees:
- An applicant normally should hold a recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit.

Careers:
The employment opportunities for our graduates are as follows:
- Finance departments of all types of corporations in all sectors,
- Financial units of international trade companies,
- Financial institutions that provide insurance, auditing, customs clearance and storage services,
- Banking, financial consulting and training institutes,
- Finance divisions of universities and research related institutes,
- Conventional and Islamic banks.

Degree Facts:
- The program is 4 years in length.
- The number of credits required to graduate are 132, these credits include a graduation project.
- There is a credit transfer from other universities.
- The programme is taught in English.
- The programme includes a great opportunity for self-development through work placements and exchange programmes with our exchange partners from around the world.

Programme:
Bachelor’s Degree in Banking and Finance
INTRODUCTION:
The program focuses on Management and Marketing as two important business disciplines for the planning and application of strategies and techniques. In this program you will be able to grasp sufficient knowledge that makes you pursue a career in management or marketing. It will provide you with analytical skills necessary which will make you competent when you are employed in any type of organizations. Core skills include management skills, marketing skills, research skills, finance skills, human resource management and many others. Additionally, other soft skills are also obtainable in this program including communication skills, presentation skills and teamwork skills.

The focus for the first and second years will be on the acquisition of fundamental knowledge in management, marketing, management information system, human resource management and finance. On the third and fourth year the student will be able to acquire in-depth knowledge and necessary skills at a more advanced level in management and marketing. Towards the final year, you will have the opportunity to choose a project, under careful supervisor of our faculty members, which will give you the chance to apply what you have learnt in this program before starting your professional career.

During the program, you will have the opportunity to choose elective modules which are made available to you to enhance your academic performance and explore many business areas which are of interest to you.

ENTRY REQUIREMENTS AND FEES:
- An applicant normally should hold a recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit
AHLIA UNIVERSITY

College of Business and Finance

PROGRAMME:
Master’s Degree in Business Administration (MBA)

INTRODUCTION:
Ahlia University has designed its MBA degree programme to match curricula offered by leading business schools worldwide with a view to further enhancing the attractiveness of its sought-after graduates in a variety of executive positions available in the marketplace in Arabian Gulf countries.

The Ahlia University MBA programme accommodates part-time study by scheduling classes on week nights and during mornings, afternoons and evenings on the extended weekend (Thursdays, Fridays and Saturdays) with a view to facilitating MBA study on the part of Bahrainis, Saudis and Kuwaitis regardless of their national weekend. The format of the courses is one three-hour session per week.

Students with exceptional undergraduate records may be admitted to the MBA programme directly upon graduation from their undergraduate institutions.

ENTRY REQUIREMENTS AND FEES:

• Admission to MBA programme is contingent on the applicant demonstrating sufficient academic preparation at the undergraduate level to warrant a prediction of scholastic success at the postgraduate level.

• Admission is granted on the basis of the applicant holding an undergraduate degree from a recognized university in which English is the primary language of instruction. Entry into any postgraduate programme is contingent on the applicant holding a BSc or BA degree.

• Applicants should normally possess a minimum undergraduate GPA of 2.5 or its equivalent.

• Those applicants who have studied and earned degrees in undergraduate institutions for which English is not the primary language of instruction need to demonstrate a competency in English sufficient to provide an ability to carry out postgraduate studies in English.

• The Admissions Committee reserves the right to stipulate deficiency requirements to any applicant offered admission where, in the judgment of the Committee, the mastery of the relevant subject matter has not been conclusively demonstrated by the academic transcript.

• Upon recommendation of the department and subsequent approval by the Dean, courses recently completed at other institutions for postgraduate credit may be transferred in partial fulfillment of degree requirements with the caveat that no course may be transferred from another institution unless the grade attained is equivalent to an Ahlia grade of “C+” or higher and unless the course was within the time limit prescribed.

Fees:
BD 160 per credit-hour/semester

DEGREE FACTS:

• MBA Students will gain a good opportunity to develop analytical skills and technical expertise in the area of business administration.

• The program will provide students with a range of knowledge and a critical framework which is needed to develop an in-depth understanding of key functional areas of management in a real-world setting.

• The program will assist in developing students’ leadership potential through a variety of “soft” skills such as effective communication (verbal, non-verbal, written, and listening), teamwork, global thinking, and change management.

• This programme consists of 18 credits (6 courses) core subjects, 6 credits (2 courses) elective “core” subjects, and a 12-credit dissertation or two elective subjects (6 credits) plus a dissertation track 2 (6 credits).

• The core courses is designed as an analytical foundation while the two elective core courses provide MBA candidates with multifunctional approach providing multidisciplinary breadth to analytic depth afforded by the core courses.

• The MBA Programme has gone through many reviews and lately received Confidence status in the Programme Review conducted by HERU/QAAET in 2012.

CAREERS:
We expect our MBA students to work in nearly different industries. Here are just a few examples of job opportunities for the graduated MBA students:

• Financial Services
• Marketing
• Management Consulting
• Public Relations
• Investment Banking
• Investment Management
• Healthcare
• E-commerce
• Retail
• Consumer Goods
Or may decide to continue for high education such as PhD
INTRODUCTION:
The programme is designed to provide students with up-to-date academic and technical skills in the fields of economics, finance and business. Also to train students to become professionals in the commercial fields, especially in such vital areas as financial institutions and markets, government services, corporations and international organizations. The programme is structured to build linkages among various fields of business and finance to qualify students to meet the challenges of employment and compete in the market place. Furthermore, the programme aims to help students in acquiring basic knowledge and understanding of the contemporary social and political systems and their impact on the economy.

In the first two years of the programme, students are offered foundation courses aiming at strengthening their theoretical knowledge in economics, finance and other business related subjects at both domestic and global levels. Also to enrich students understanding about the functioning of various markets and the role that business plays in the overall development of society. During the last two years of the programme, students are given specialized courses in several fields of business studies including money, investment, econometrics, international business, business law, international finance and industrial organization.

ENTRY REQUIREMENTS AND FEES:

- An applicant normally should hold a recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation programme.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

CAREERS:
Graduates with economic and finance background are successful in wide variety of careers including public sectors, private enterprises, international institutions, and multinational corporations. Students can opt for postgraduate degrees in economics and finance after completing their undergraduate degree so they can also work in academic institutions by contributing to both teaching and research. In addition, careers in economic and finance stream offer jobs in the financial world, consulting, marketing and global markets.

DEGREE FACTS:
- The programme is 4 years in length.
- The programme is taught in English.
- The number of credits required to graduate are 132 and these credits include a graduation project.
- The programme includes a great opportunity for self development through work placements and exchange programmes with our exchange partners from around the world.

PROGRAMME:
Bachelor’s Degree in Economics and Finance
INTRODUCTION:
The programme aims to prepare graduates for meeting the informational challenges of the 21st Century enterprise in the information age. The programme focuses on providing students with required knowledge and skills in the areas of business information and information technology that prepares students to pursue a career in business in general and business information system in particular. The programme provides the student with the necessary analytical skills which will make them a competent employee in any type of organizations. The programme core skills include system analysis & design, E-commerce, managing enterprise systems, knowledge management, data base management systems, and computer systems. Additionally, other soft skills are also obtainable in this program including communication skills, presentation skills and teamwork skills.

The first two years will focus on the acquisition of fundamental knowledge in information technology, management information systems, management and finance. During the last two years of the programme the student will be able to acquire in-depth knowledge in managing information systems and the required skills at an advanced level. Towards the final year, the student has the opportunity to choose subject for their graduation project and under careful supervisor of our faculty members, the student will be given the chance to apply what they have learnt in this programme before starting their professional career.

During the programme, the student has opportunity to choose elective modules which are available to enhance their academic performance and explore many business information systems.

ENTRY REQUIREMENTS AND FEES:

- An applicant normally should hold a recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

CAREERS:

INTRODUCTION:
The Computer and Communication Engineering undergraduate programme focuses on computer and communication engineering concepts and applications. The programme provides exposure to diverse cutting-edge technologies spanning information security, software engineering, and various communication techniques.

The Microsoft Certified Systems Engineer is launched into this programme. The MCSE credential is the premier certification for professionals who can successfully design, plan, and implement a network infrastructure and client deployment on the Microsoft Windows server. This certification will lead the students to become Systems Administrators who will be responsible for implementing, managing and maintaining messaging on Exchange Server. The certificate track is divided into six dependent courses, the first two courses are compulsory courses inserted within the third year of the programme; and the remaining four courses are listed as optional electives for students to choose from (two programme electives + two free electives).

ENTRY REQUIREMENTS AND FEES:
• An applicant normally should hold a recognized secondary school certificate or its equivalence.
• The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation programme.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

DEGREE FACTS:
• The programme is taught in English.
• The programme is 4 years in length.
• 132 credits are required to graduate, these credits include a graduation project.
• Inclusion of professional courses such as the Microsoft Certified System Engineer Certification (MCSE).
• The programme includes a great opportunity for self development through work placements and exchange programmes with our exchange partners from around the world.

CAREERS:
Telecommunication Engineer, Communication Networks Engineer, Microsoft Certified System Engineer, MSCE Certification trainer, and other career prospects in such growth areas as Telecommunications and Internet technology, Automotive and Traffic Technology, etc.
INTRODUCTION:
The Mobile and Network Engineering undergraduate programme focuses on mobile technology and network engineering and provides students with the knowledge and skills so important for a career in the rapidly changing mobile and networking industry. Through this programme, students acquire an in-depth knowledge in networking technologies, wireless communications, mobile communication technologies and multimedia service convergences.

The Cisco Professional Certificate is launched into this programme. With this certification, students will be able to build a functional configuration to support the specified network operational requirements. The certificate track is divided into four dependent courses, the first is compulsory inserted within the third year of the programme; and the remaining three courses are listed among programme electives for students to choose from (two programme electives + two free electives).

ENTRY REQUIREMENTS AND FEES:
• An applicant normally should hold a recognized secondary school certificate or its equivalence.
• The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation programme.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

DEGREE FACTS:
• The programme is 4 years in length.
• The programme is taught in English.
• The number of credits required to graduate are 132 and these credits include a graduation project.
• The programme includes a great opportunity for self-development through work placements and exchange programmes with our exchange partners from around the world.
• Inclusion of professional courses such as the CISCO Professional Certifications (CCNA- CCNP)

CAREERS:
Network Engineer, Telecommunication Engineer, and Network/ IT administrator.
INTRODUCTION:
The Information Technology undergraduate programme prepares students to be proficient not only in a wide variety of computer programmes but also in the design, implementation and use of information technology. The programme imparts thorough knowledge of the components of computer systems, the role of the operating systems, and inculcates expertise in programming languages, advanced applications, databases and expert systems.

A significant feature of our undergraduate program is that it incorporates the Oracle 10g Database Administrator Professional Certificate in the structure of its curriculum. The Professional Certificate is launched into this programme with an aim to create Data Base Administrators in Oracle 10g version. Oracle Database Administrators manage the industry's most advanced information systems. This certification advances the success as an oracle professional in the area of database administration. The certificate track is divided into four inter-dependent courses, the first course is a compulsory course inserted within the third year of the programme; and the remaining three courses are listed as optional electives for students to choose (two programme electives + two free electives). Upon completion of these courses, the student will be an Oracle certified professional in the area of database administration.

ENTRY REQUIREMENTS AND FEES:
- An applicant normally should hold a recognized secondary school certificate or its equivalence.
- The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
- Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

FEES:
Fees are charged per credit as follows:
- Year 1: BD 100 per credit;
- Year 2 BD 110 per credit;
- Year 3 BD 120 per credit;
- Year 4 BD 130 per credit.

CAREERS:
The B.Sc. Information Technology degree will prepare the students for a dynamic career in business or IT. You will have knowledge of both the technical and commercial aspects of modern business, so a host of professional opportunities will be available to you on graduation. You will be very well placed to take on roles in IT, business management or consultancy, in the public or private sectors.
INTRODUCTION:
The Distributed Systems and Multimedia undergraduate programme aims to provide the student with an understanding of both the theoretical and practical aspects of distributed systems while focusing on the challenging area of multimedia. The programme is designed to train students on how computers obtain, manipulate and represent visual media. Plus the programme imparts expertise in the production of technically advanced professional presentations including integrated pictures, audio, video, 3-D and 4-D graphics and computer animation.

The Microsoft Certified Technology Specialist (MCTS) certification is embedded in the programme. The MCTS technology specialist certifications enable professionals to target specific technologies and to distinguish themselves by demonstration in-depth knowledge and expertise in their specialized fields. The certificate track is divided into four dependent courses, the first course is a compulsory course inserted within the third year of the programme; and the remaining three courses are listed as optional electives for students to choose (two programme electives + two free electives).

ENTRY REQUIREMENTS AND FEES:
• An applicant normally should hold a recognized secondary school certificate or its equivalence.
• The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation programme.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;  
Year 2 BD 110 per credit;  
Year 3 BD 120 per credit;  
Year 4 BD 130 per credit
INTRODUCTION:
Advanced Information Technology (IT) and Computer Science (CS) knowledge and skills are needed for Industry and related fields of research. Since 2003, the Department of IT has offered a Master's Degree in Information Technology and Computer Science (MITCS). The MITCS programme imparts advanced theoretical and practical concepts with a view to instilling in its Master degree candidates a broad panoply of skills spanning programming, software engineering, information systems, networking and security, and distributed systems and multimedia.

The aims of the MITCS Programme are as follows.
• To equip students with advanced professional knowledge and skills in areas of information technology and computer science in accordance with international standards.
• To nurture an innovative research culture that encourages students and faculty to undertake independent and collaborative high-quality research.
• To enable students to identify multifaceted problems in their area of specialization and to design, analyze, implement and manage efficient solutions for them using current information technologies.
• To motivate graduates to apply tools, skills, and techniques of information technology in their current and future work environment to increase their organization’s productivity and to gain a competitive advantage.
• To prepare graduates to demonstrate ethical behavior and to be professionally competent and motivated to life-long learning.

ENTRY REQUIREMENTS AND FEES:
Admission to the MITCS programmes is contingent on the applicant demonstrating sufficient academic preparation at the undergraduate level to warrant a prediction of scholastic success at the postgraduate level. Admission is granted on the basis of the applicant:
1. Holding an undergraduate degree from a recognized university in which English is the primary language of instruction. Entry into the MITCS programme is contingent on the applicant holding a BSc degree although applicants may of course apply for postgraduate admission in their senior year of undergraduate study before the completion of their programme. Ordinarily, candidates for the MITCS degree ought to have had an undergraduate major in MIS, computer science or an allied field.
2. Applicants should normally possess a minimum undergraduate GPA of 2.5 or its equivalent. Applicants with a GPA of less than 2.5 may be asked to take the orientation courses.
3. Those applicants who have studied and earned degrees in undergraduate institutions for which English is not the primary language of instruction need to demonstrate a competency in English sufficient to provide an ability to carry out postgraduate studies in English.
4. The Admissions Committee reserves the right to stipulate deficiency requirements to any applicant offered admission where, in the judgment of the Committee, the mastery of the relevant subject matter has not been conclusively demonstrated by the academic transcript by requiring applicants to take one or more of the orientation courses.

Fees: BD 160 per credit-hour/semester
PROGRAMME:
Bachelor’s Degree in Interior Design

INTRODUCTION:
Interior design is both an art and science that involves the adaptation of natural and human-made environments not only to the cultural, social, economic and behavioral activities, but also to the physiological and psychological attributes of people. Different interior design dynamics apply to public as opposed to private buildings. However, the focus of interior design space shifts to the satisfaction of group and individual needs. The quality of the interior environment is determined by how well it satisfies the users’ needs and their preferences for functions, materials, and aesthetics.

ENTRY REQUIREMENTS AND FEES:
• An applicant should normally hold a recognized secondary school certificate or its equivalence.
• The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

Fees:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

DEGREE FACTS:
• This program aims at providing the students with knowledge, background and ability in the subject of design and organization of inner spaces.
• Students are provided with both theoretical and practical knowledge.
• All audio-visual media are used for designing works in the computer laboratories by means of modern drawing software (AutoCAD, Photoshop, Sketch-up & 3D Max).
• Information given in courses like “Design Studio I, II, III & IV”, “Construction and Material” is mainly professional for the first three years. In the last year, which is the period of entering the profession, the schedule includes the final project research and design and several elective courses to offer the students the opportunity to choose from various specializations within field of interior design.
• The program is a four year full time professional degree with a total of 132 Credit Hours, these credit include a gradation project.
• The medium of instruction is 100% English

CAREERS:
Graduates from the department of Interior Design have the opportunity to work in the interior design, interior architecture and architecture offices. They can either establish their own offices or work in the private and public sectors conducting design, implementation and commercial activities. Besides, they have the opportunity to become instructors in universities after continuing their higher education.
INTRODUCTION:
The Department of Mass Communication and Public Relations aspires to produce highly competent communicators who apply critical thinking to solve public relations issues and demonstrate ethical and professional behavior.

In minting socially responsible communication professionals capable of competently employing a broad range of media and technologies available for disseminating messages and images to various publics, the Department enables students to explore media-related issues from many points of view with a view to instilling a creative thought process requiring both inquiry and critical thinking.

ENTRY REQUIREMENTS AND FEES:
• An applicant normally should hold a recognized secondary school certificate or its equivalence.
• The university administers placement tests in English language and Mathematics. Students who pass these tests are exempted from the orientation program.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.

FEES:
Fees are charged per credit as follows:
Year 1: BD 100 per credit;
Year 2 BD 110 per credit;
Year 3 BD 120 per credit;
Year 4 BD 130 per credit

DEGREE FACTS:
• This program aims to help the students to gain knowledge, background and ability in the subject of Mass Communication & Public Relations.
• Students are provided with both theoretical and practical knowledge.
• All audio-visual media are also used for designing works in computer laboratories by means of modern drawing software. (Photoshop, Flash).
• Information given in courses like “Graphic and Multimedia” is mainly professional for the first three years. In the last year, which is the period of entering the profession, students are provided with first-hand experience in designing interactive multimedia.
• The program is a four year full time professional degree with a total of 132 credit hours, these credits include a graduation project.
• The medium of instruction is approximately 60% - 40% Arabic - English.

CAREERS:
Graduates from the department Mass Communication & Public Relations have the opportunity to work in radio, television, and the press or public relations. They can either establish their own offices or work in the private and public sectors in areas such as public relations, implementation and commercial activities. Besides, they have the opportunity to be instructors in universities after continuing their higher studies.
INTRODUCTION:
The Department of Mass Communication and Public Relations prepares students to become professionals in the dual fields of communication and public relations. Students who opt for a communication specialization will be eligible to assume a diverse variety of positions in media organizations ranging from journalism to broadcasting. Alternately, students who opt for a public relations specialization will be eligible to assume positions as public relations associates in advertising firms and as staff members in public relations departments in corporations and government organizations.

ENTRY REQUIREMENTS AND FEES:
• An applicant should normally hold a bachelor's degree in mass communication and public relations.
• Candidates transferring from a recognized institution of higher education are eligible for consideration for admission.
• Students with no undergraduate background in media studies, journalism and communication will be required to take two foundation courses before proceeding to the core courses.

Fees:
BD 160 per credit-hour/semester

DEGREE FACTS:
The programme aims to train individuals to be highly skilled communication and public relations practitioners by providing them with diverse academic, research and practical experience to enrich their professional development.

The Mass Communication and Public Relations Programme blends practical training and academic study in an innovative way that will enable students upon graduation to perform multifunctional communication roles and convey public relations knowledge effectively.

Credit hours: 36
Years of study: 2 years
Course language: Arabic and English

CAREERS:
Graduates from the department Mass Communication & Public Relations have the opportunity to work in radio, television, the press or public relations. They can either establish their own offices or work in the private and public sectors in public relations, implementation and commercial activities. Besides, they have the opportunity to be instructors in universities after continuing their higher studies.
INTRODUCTION:
The Engineering Management and Systems Engineering (EMSE) Off-Campus Program office at George Washington University (GWU), USA, offers a master degree program in Engineering Management in the Kingdom of Bahrain at Ahlia University that were designed to develop leaders for technically oriented organizations and prepare them for the future. The GW/AU Master's program in Engineering Management teaches employees of engineering, business and technical organizations to complement technical knowledge with managerial skills. The GW Department of Engineering Management and Systems Engineering in collaboration with Ahlia University bring its time-honored education programs to a convenient location in the Middle East.

The field of Engineering Management with focus in Engineering and Technology Management (E&T) bridges the gap between engineering and management. It involves the overall management of organizations oriented to manufacturing, construction, engineering, technology or production. E&T enables engineers to function more effectively in the business environment. A master degree in engineering management provides a technical-based alternative to traditional M.B.A. programs. Practitioners specialize in such areas as management of technology, product and process, quality, organizational management, operations management, program management or marketing and finance.

ENTRY REQUIREMENTS AND FEES:
- Students applying for the Master's degree program in Engineering Management must meet the entrance requirements of the School of Engineering and Applied Science (SEAS) at GWU.
- A Bachelor’s degree with a minimum grade average of B (2.5 on a 4.0 scale) in the last two years of undergraduate study from a recognized institution is generally required. Grades of C or better in two college calculus courses are prerequisite to all graduate programs in the EMSE department.
- Applicants who do not meet this requirement must take the 3 credit hour's course, EMSE 6992, Special Topics: Quantitative Methods in Engineering Management, must be taken during the first semester of graduate study at Ahlia University.

Fees:
BD 240 per credit-hour/semester

CAREERS:
Graduates from the Master Degree in Engineering Management are practitioners in several management fields such as technology management, project management, product and process management, quality management, organizational management, operations management, program management or marketing and finance.
**AHLIA UNIVERSITY**

**College of Graduate Studies and Research**

**PROGRAMME:**
Doctor of Philosophy (PhD-WR) in Management Studies, offered by Brunel University, UK in collaboration with Ahlia University.

**ENTRY REQUIREMENTS AND FEES:**
- Applicants are normally expected to hold a good honours degree in a relevant academic discipline. Ideally applicants should also have successfully completed a Master's degree.
- If English is not your first language you will be required to demonstrate an adequate level of proficiency as prescribed by Brunel University.
- The programme needs to be perused for a minimum of three years.

**Fees:** £13080 (British Pounds) per year

**INTRODUCTION:**
The PhD without residence aims to produce graduates in many fields of study. This programme enables students to qualify as PhDs through contribution to knowledge in their chosen field of research in Management Studies, Operational Research and any other related fields.

**DEGREE FACTS:**
Enables students to:
- Discover novel findings – which should be of a standard sufficient for publication in peer reviewed academic journals;
- Have a broad and in depth understanding of their field including relevant methodologies, an ability to discuss critically research, its implications and limitations;
- Prepare a well written and presented thesis describing the background to their work, the methods used, observations made and critical discussion in the context of the broader field.

**CAREERS:**
As researchers develop, promote and facilitate research on various topics with respect to the national, regional and international contexts.

As academics contribute to teaching and developing students in various fields.

As professionals contribute to industry as employees or consultants in areas that need in-depth understanding and exploitation of concepts and phenomena for the benefit of the industry.

INTRODUCTION:
The Associate of Business Informatics offers a pathway to Bachelor Degree in Business Informatics. It provides students the opportunity to integrate traditional business programmes and information technology (IT), hence, providing students with an appreciation of the connections between business and Information technology. On successful completion of the award, students should be able to converse critically with a range of audience where business administration skills are required. Graduates of the programme should be able to undertake simple to complex analysis involving cross-linkage of business functional areas and information technology.

ENTRY REQUIREMENTS AND FEES:
A new student applicant is required to submit all of the following documents together with the completely filled out application form:
• Pass AMA Admission Test.
• Original Secondary School Certificate or its equivalent together with an English translation of the transcript and an “A” level certification from the Ministry of Education.
• A photocopy of the applicant’s passport or at least 2 valid identification cards and 4 copies of recent passport-size photographs.
• Certificate of good moral character from last school attended and graduated from.
• Original and copy of Standardized English Test score such as: TOEFL score of at least 550 (173 CBT, 61 CBT) or its equivalent in a standardized English language test, such as 5.5 IELTS or other standardized internationally recognized English test approved by the Ministry of Education if applying for exemption from English foundation courses.
• Students are required pass the entrance examination and the interview.
• 50 BHD for each credit unit.

DEGREE FACTS:
• The duration of the programme is two (2) years.
• The medium of instruction for all courses is English.
• The number of credits required to complete the programme is 108 units.

CAREERS:
On completion of the awards, graduates can take roles such as executive, financial and marketing assistants. In addition, the Programme awards transferable credits which can lead graduates for bachelor degrees in business.
INTRODUCTION:
The Diploma of Business Informatics offers a pathway to the Associate of Business Informatics. The Diploma provides students the opportunity to develop and systematically apply knowledge of business informatics issues. The discipline specific units prepare students for more advanced study of the theoretical frameworks and skills which underpin successful practice in information technology and business. On successful completion of the award, students should be able to conduct conversational communication, performs data entry and basic accounting.

ENTRY REQUIREMENTS AND FEES:
A new student applicant is required to submit all of the following documents together with the completely filled out application form:
• Pass AMA Admission Test.
• Original Secondary School Certificate or its equivalent together with an English translation of the transcript and an “A” level certification from the Ministry of Education.
• A photocopy of the applicant’s passport or at least 2 valid identification cards and 4 copies of recent passport-size photographs.
• Certificate of good moral character from last school attended and graduated from.
• Original and copy of Standardized English Test score such as: TOEFL score of at least 550 (173 CBT, 61 CBT) or its equivalent in a standardized English language test, such as 5.5 IELTS or other standardized internationally recognized English test approved by the Ministry of Education if applying for exemption from English foundation courses.
• Students are required pass the entrance examination and the interview.
• 50 BHD for each credit unit.

DEGREE FACTS:
• The duration of the programme is one (1) year.
• The medium of instruction for all courses is English.
• The number of credits required to complete the programme is 54 units.

CAREERS:
Graduates of the programme should be able to undertake simple analysis in the fields of accounting and business and can take roles such as office clerk, administrative staff, and financial assistant. In addition, the Programme awards transferable credits which can lead graduates for associate degrees in business.
COLLEGE OF ENGINEERING

PROGRAMME:
Diploma in Informatics Engineering (DIE)

INTRODUCTION:
The Diploma of Informatics Engineering offers a pathway to Associate of Informatics Engineering. The programme covers competencies and skills in basic mathematics, natural sciences, computing, and communication. It intends to provide students with basic technical competencies in engineering and computing; and communication skills which they can use on practice in entry level professions.

- Student will gain a solid base in the key information systems skills at theoretical, practical and application levels.
- Student will gain a range of transferable skills which are highly sought by the employers.
- The Period of study is 3 - 4 years long.
- The number of credit hours required for graduation is 135.
- The program is delivered in English language.

**PROGRAMME:**
Bachelor in Management Information Systems (MIS)

**DEPARTMENT:**
College of Administrative Sciences
INTRODUCTION:
The Applied Science University Bachelor of Science in Business Administration is underpinned by a recognized need to develop graduates with both knowledge and understanding of the functions of business and how they are integrated. This knowledge is then ‘Applied’ through practical skills development, allowing students to integrate their conceptual knowledge with practice.

Consequent to this approach students will be introduced to the key functions of business including the disciplines of general management, marketing, financial management and organization where they will be equipped with a fundamental understanding of key concepts and theories in each area and exposed to practical approaches to solving ‘real world’ business problems and issues through a range of teaching methods and approaches that focus on the practical application of knowledge.

Year One and Two have a strong emphasis on introductory courses, while in Years three and four a strong emphasis on intellectual and practical skills.

The programme is designed to equip graduates with the knowledge and skills to operate in a wide range of organizational settings and add value to the organization they are employed with.

ENTRY REQUIREMENTS AND FEES:
• High school (Thanawya) or equivalent: A minimum of 60% cumulative GPA or its equivalence.
• Fees: BD 90 per credit.
• A Thanawya student graduated from a discipline other than the sciences are required to take remedial course in mathematics.
• A Student below 60% can be admitted if he/she can fulfill one of the following:
  - 3 years of experience in a related field of specialization approved by a certificate from the employer.
  - Passing a personal interview.
  - Athletes and Artists who represents Kingdom of Bahrain at regional and international Champions.
    (Number of admitted students according to the above criteria should not exceed 5% of the total admitted students in that particular semester).

DEGREE FACTS:
• You will gain a solid base in the key business administration skills at theoretical and practical levels.
• Student will gain a range of transferable skills which are highly sought after by the employers.
• The Period of study is 3 - 4 years long.
• The number of credit hours required for graduation is 135.
• The program is delivered in Arabic language.

CAREERS:
Business graduates are much sought after and you will be in a position to choose among a wide range of interesting and challenging careers in both public and private sector such as sales, marketing, human resources management, financial services, running own small business, etc...

In addition, many students progress to study for a higher degree.
INTRODUCTION:
The course is structured around the two key themes of accounting skills. These themes are developed through a variety of teaching and learning methods, including field trips, visiting speakers from the filed of accounting and finance of Bahrain institutions and banks. The course content has been designed in response to the needs of accounting in local and external market.

Aims of the program:-
- To equip students with the required accounting knowledge and related skills that help them compete effectively in the labor market.

Accounting graduates will be in a position to choose from a wide range of interesting and challenging careers in area such as: Accounting, Finance services, Financial management and Research.

In addition, many students progress to study for a higher degree (Master and PhD) and certificates in accounting, auditing and finance.
Introduction:
Recognizing the human resources as one of the important sources of competitive advantage for corporate sustainability, corporations are striving to nurture and manage their human resources more effectively.

The ASU MHRM programme is designed to provide existing graduates from different disciplines to study for master in Human Resources Management.

The ASU MHRM welcomes candidates from a number of countries and the program is delivered within a domestic and regional context.

The programme is designed to equip the student with skills in management and human resources management to start their human resources career.

The program aims to develop Human Resources specialist understanding and critical appreciation of the theories, tools and techniques of management and human resources management to enable them more effectively lead and manage human resources in organizations. It seeks to improve the quality of performance as a profession.

Entry Requirements and Fees:
• Minimum of 60% cumulative GPA in bachelor of business or from non-business background while those from non-business background must be enrolled in introductory courses with zero credit hour as a condition to get eligible for first semester MHRM courses enrollment.
• Students are required to be interviewed and must be able to demonstrate an interest in this Program.
• Fees for each credit hours is 140 B.D.

Careers:
Upon successful completion of the ASU MHRM candidates will be exposed for a range of careers in both the private and public sectors.

Human resources specialists are recognized as essential business partners who create programs and activities that impact business and contribute to its success.

The MHRM graduate has a potential opportunity in all organizations that seek specialist with knowledge and skills in Human resources context.

Degree Facts:
• The MHRM student will acquire a wide spectrum of skills in different modules; as human resources management, research methodology, training and developing human resources, financial management and performance evaluation encompassing them into an interdisciplinary approach.
• The course is 6 semester long.
• The number of credit hours for MHRM degree completion is 36 credit hours, noting that the thesis is 6 credit hours.
• The course is delivered in Arabic language.
INTRODUCTION:
The computer science offer market-driven curricular programs which meet the current and future needs of students and society, regularly reviewing the match between curriculum, enrollment and resources to ensure quality, competency-based academic programs based on the QAA concepts.

ENTRY REQUIREMENTS AND FEES:
- High school (Thanawya) or equivalent: A minimum of 60% cumulative GPA or its equivalence.
- Fees: BD 90 per credit.
- A Thanawya student graduated from a discipline other than the sciences are required to take remedial courses
- A Student below 60% can be admitted if he/she can fulfill one of the following:
  - 3 years of experience in a related field of specialization approved by a certificate from the employer
  - Passing a personal interview.
  - Athletes and Artists who represents Kingdom of Bahrain at regional and international Champions.
(Number of admitted students according to the above criteria should not exceed 5% of the total admitted students in that particular semester).

CAREERS:
- Computer Programmer.
- System analyst.
- Postgraduate Student.
- Other IT functions employee.

DEGREE FACTS:
- To ensure the enhancement of the learner’s analytical, creative and critical thinking skills.
- To establish and maintain an effective program and course evaluation system to ensure continuous quality improvement in educational activities and technology.
- To stress students’ participation in various activities, conferences and workshops.
- To support students through academic and social counseling, participation in decision making and building up a true co-operative students’ union who is committed to values, ethics and principles.
- The Period of study is 3 – 4 years long.
- The number of credit hours required for graduation is 136 starting from first semester 2013/2014.
- The program is delivered in English language.
INTRODUCTION:
To prepare and graduate a qualified artists and designer who are able to compete and meet, the local labor market needs in Bahrain and Gulf through offering advanced academic programs.

ENTRY REQUIREMENTS AND FEES:

ARAB OPEN UNIVERSITY
Programmes Available

www.aou.org.bh
INTRODUCTION:
ITC program aims to:
• Provide up-to-date knowledge of important concepts and trends in information technology and computing and their context.
• Enable students to apply their knowledge and understanding appropriately in such activities as analysis, abstraction, problem-solving, design and testing.
• Prepare students for professional work in the fields of information technology and computing by equipping them with appropriate cognitive, key, practical and professional skills, including the skills needed to undertake lifelong learning in their chosen professional field.

ENTRY REQUIREMENTS AND FEES:
To be admitted in ITC program the student should fulfill the following conditions:
• Obtain a general secondary school certificate or equivalent.
• Fulfill any other conditions determined by the University or competent authorities of the HEC.
• Admission to programs is subject to local authority regulations.

AOU administers Language Placement Tests in both Arabic and English, not as admission requirements but as indicators to help place students at the appropriate level of language development. Based on the test scores, students will be assigned courses which aim to develop the students’ proficiency in English/Arabic in order to undertake the full course load in their respective areas of specialization.

Years of study: 4 years.
Total fees: BD 5860.

DEGREE FACTS:
To obtain the BSc Honors degree in ITC, students must achieve at least 131 credit hours:
• General University requirements (18 credit hours).
• Faculty compulsory Requirements (6 credit hours).
• Faculty elective requirements (9 credit hours).
• Faculty core requirements (98 credit hours).

CAREERS:
ITC graduates can choose from a wide range of interesting and challenging careers in areas such as: designing and implementing software (includes aspects of web development, interface design, security issues, mobile computing, and so on). In addition many software professionals return to school to obtain a terminal master’s degree.
College of Business Studies

PROGRAMME:
BA (Honors) Business Administration (System Track)

DEGREE FACTS:
To obtain the BA Honors degree in Business Administration (System Track), students must achieve at least 128 credit hours:
• General University requirements (18 credit hours).
• Faculty compulsory Requirements (3 credit hours).
• Faculty elective requirements (11 credit hours).
• Faculty core requirements (96 credit hours).

CAREERS:
Business graduates can choose from a wide range of interesting and challenging careers in areas such as: Administrative, HRM, Marketing, Operation Management, Trade, Executive Secretary, Sales, Purchase, all topic related to organization Supply Chain, Store Keeper, Bookkeeper, Management System, Problem Solver.
In addition many graduates return to school to obtain a terminal master's degree.

INTRODUCTION:

In addition, students may progress to study for a higher degree (MSc, PhD, and Chartered Accountant, CPA, CMA, CFA, CIMA).
**GULF UNIVERSITY**

**College of Engineering**

**PROGRAMME:**
Interior Design Engineering – B.sc.

**ENTRY REQUIREMENTS AND FEES:**
- High School Diploma (Thanawiya) or its equivalence – Minimum of 70% Cumulative GPA, otherwise preparatory courses are required.
- Students are required to show proficiency in English (have one of the international language certificates) or take a placement test to determine level; preparatory course(s) may be required.
- Students are required to take a placement test in mathematics and computer literacy to determine whether preparatory course(s) are required.
- Fees for each Credit hour is 100 BD.

**INTRODUCTION:**
The Interior Design Engineering curriculum is in line with highly recognized international standards, leading to a Bachelor of Science. After their third year, students participate in a summer internship program that requires them to work in an Interior Design office for no less than eight weeks.

Interior Design engineering program provides a healthy mix of theory, technology and design in the curriculum, which seeks to enhance the knowledge and skill necessary to link understanding to experience, theory to practice, and art to science in ways that respond to human needs, aspirations, and sensibilities.

**DEGREE FACTS:**
The B.Sc. in Interior Design Program will:
- Provide the students with a strong foundation in the basic principles and elements of design, drawing and color in order to develop a non-verbal design language, visual logic, and fluency of expression.
- Help the student learn to think critically about a design problem before, during and after creating a design solution.
- Encourage creative expression and original work within a structured curriculum that balances theory and practice, vision and planning, creativity and logic, art and technology.
- Encourage the dialogue between interior design and architecture by providing students with knowledge of architectural history, spatial relationships and organizations, methods and materials, construction codes and building systems.
- Provide awareness of business practices related to interior design and the designer’s ethical responsibilities to profession and society.
- Enable the student to work effectively on multidisciplinary teams for the optimum solution of a wide range of Interior Design problems.
- The program is 4 years in length.
- The number of credit hours required to graduate is 144.
- The course is taught in English.

**CAREERS:**
There are many different careers in interior design and several exciting and rewarding career paths that an interior designer can choose to follow. Graduates in Interior Design take jobs as residential Interior Designers, commercial Interior Designers, etc., quite often an interior designer will decide to specialize in more than one area of practice.
ROYAL COLLEGE OF SURGEONS
- MEDICAL UNIVERSITY OF BAHRAIN
(RCSI BAHRAIN)
Programmes Available
www.rcsi-mub.com
**INTRODUCTION:**
The Medical Commencement Programme (MCP) is a one year, full time programme that provides students with a greater knowledge of general science subjects, study/research skills and medical related English. It is designed to equip students with the skills and knowledge required to bridge the gap between second level education and that of a third level medical university.

**ENTRY REQUIREMENTS AND FEES:**
Admission to the MCP is based on academic grades and qualifications, performance at a structured interview, recommendation letter from your school and English language ability.

The academic entry requirements for the MCP are as follows:

- Completion of the science stream of the Secondary School Leaving Certificate and achievement of a cumulative Grade Point Average (cGPA) of 87%+.
- Achievement of an IELTS examination score of 4.5 (or TOEFL equivalent grade).

*Please note:* These grades are minimum entry requirements only and do not guarantee entry into the programme.

Interested applicants should complete an online application form available at www.rcsibahrain.edu.bh and submit the following documentation:

- School transcripts/certificates (applicants who do not have their final grades should submit transcripts for Grades 10/11).
- IELTS or TOEFL examination results.
- Confidential statement/letter of recommendation (completed by your School).
- Copy of your passport and CPR (if applicable).
- Personal statement.
- Two recent passport sized photographs.

Following completion of the online application and receipt of the above essential documentation, the Admissions Department will be in contact to advise if the applicant has been shortlisted for interview.

For additional information, please visit our website www.rcsibahrain.edu.bh or contact the Admissions Department on Email: admissions@rcsi-mub.com or Tel: + 973 17351450 Ext: 5555.

**FEES:**
Academic Year 2012/2013: US$10,960 per year (subject to change)

**DEGREE FACTS:**
- The academic year commences in September and extends over two semesters.
- The programme comprises of 12 modules.
- All students follow the core science subjects. In addition, students with an IELTS score of less than 6.5 undertake English language for medical purposes and students with an IELTS score of 6.5+ undertake research modules.
- The programme is taught solely in English.

**CAREERS:**
On successful completion of all modules of the Medical Commencement Programme and achievement of a score of 5.5 in IELTS (or TOEFL equivalent), students can progress to the 6 year Medical Programme (MB BCh BAO) in RCSI Bahrain.
ROYAL COLLEGE OF SURGEONS IN IRELAND - MEDICAL UNIVERSITY OF BAHRAIN (RCSI BAHRAIN)

PROGRAMME:
Medicine (MB BCh BAO) - Bachelor of Medicine, Bachelor of Surgery, Bachelor in the Art of Obstetrics

ENTRY REQUIREMENTS AND FEES:
Admission to the Medical Programme is dependent on academic grades and qualifications, performance at a structured interview, recommendation letter(s) from School/University and English language ability.

Entry requirements for the six year Medical Programme are as follows:

- Completion of the science stream of the Secondary School Leaving Certificate with achievement of a cumulative Grade Point Average (cGPA) of 92%+
- Achievement of an IELTS examination score of 5.5 (or TOEFL equivalent grade).

(5/6 year entry requirements for additional curricula (including IB, A Levels, CBSE, etc) and information regarding eligibility for direct entry into the 5 year programme is available at www.rcsibahrain.edu.bh or contact the admissions office admissions@rcsi-mub.com).

*Please note: These grades are minimum entry requirements only and do not guarantee entry into the programme.

Interested applicants should complete an online application form at www.rcsibahrain.edu.bh and submit the following documentation:

- School transcripts/certificates (applicants who do not have their final grades should submit transcripts for Grades 10/11)
- University transcripts (if applicable).
- IELTS or TOEFL examination results.
- Confidential statement/letter of recommendation (completed by your school/university).
- Copy of your passport and CPR (if applicable).
- Personal statement.
- Two recent passport sized photographs.

Following completion of the online application and receipt of the above essential documentation, the Admissions Department will be in contact to advise if the applicant has been shortlisted for interview.

For additional information, please visit our website www.rcsibahrain.edu.bh or contact the Admissions Department on Email: admissions@rcsi-mub.com or Tel: + 973 17351450 Ext: 5555.

Fees:
Academic Year 2012/2013: US$38,250 per year (subject to change).

INTRODUCTION:
This five/six year, full-time Medical Programme is open to school leavers and those who have undertaken an undergraduate degree in another discipline but now wish to pursue a career in Medicine. The programme is designed to ensure students develop a balanced perspective of domiciliary, community and hospital care and acquire a sound knowledge of the principles of both science and the art of medicine. Students are also provided with comprehensive training through exposure to a variety of specialties, thus enhancing career opportunities at home and abroad.

DEGREE FACTS:
- The Medical Programme consists of three cycles, Junior (3 semesters), Intermediate (3 semesters) and Senior Cycle (4 semesters) which can be preceded by a Foundation Year (2 semesters).
- The programme is systems based and outcome focused with an emphasis on early access to clinical skills.
- The course is taught entirely in English.
- The programme is identical to that offered in RCSI Dublin.
- Exit awards: students who are unable to complete the Bachelor of Medicine Programme, but have completed and passed all modules up to Intermediate Cycle 1 and have gained 120 credits, may exit the programme with the award of Diploma in Medical Sciences. Students who have completed 180 credits and have completed, either Intermediate Cycle 2 and an optional research dissertation or Intermediate Cycle 3, may exit the programme with a BSc in Medical Sciences.

CAREERS:
Graduates are awarded the degree of MB BCh BAO from the National University of Ireland (NUI) and from RCSI Bahrain. In addition, they also receive the Licentiate of the Royal College of Surgeons in Ireland (LRCSI) and the Licentiate of the Royal College of Physicians of Ireland (LRCPi).

The Medical Programme is accredited by the GCC Medical Schools Deans’ Committee, is included in the World Health Organisations Directory of Medical Schools and the International Medical Education Directory of the Foundation for the Advancement of International Medical Education and Research (FAIMER). The above awards and recognition allow graduates to pursue a wide variety of postgraduate training opportunities around the world.
INTRODUCTION:
This programme has been designed to facilitate healthcare professionals, managers and administrators to develop the necessary knowledge, expertise and skills in management and leadership which can be applied to various settings within healthcare systems.

This is a part-time modular 2-year programme. Each module is delivered by blended learning with a mixture of in-class delivery and web based resources and instruction. There are six modules in Year 1 with the classroom component of each module taught in a four-day block.

Year 2 is dedicated entirely to the dissertation where students complete a change management project in their workplace. This is three modules worth of work and is supported by a series of dissertation seminars and action learning sets.

Assessment is carried out through individual and group assignments, case studies, presentations, reports, reflection, posters, examination and a change management project.

ENTRY REQUIREMENTS AND FEES:
• Candidates must fulfil the National University of Ireland entry requirements which include holding a primary degree or equivalent.
• A minimum of three years work experience, following an undergraduate degree.
• Where English is not a first language, a TOEFL or IELTS test is required with scores of 62 and above for TOEFL, or IELTS scores of 5.0 and above.
• The programme is offered on a part-time basis over 2 years.
• The cost of the two year MSc Programme may be paid with a flexible payment schedule.
• The course fee includes all resources including core textbooks, access to our award-winning virtual learning environment and access to extensive RCSI only databases.
• Each candidate application will be considered on an individual basis.
• Further additional entry requirements may be requested by the Higher Education Council, Bahrain.

Admissions Process
• Completed Application Form
• Personal Recommendation Form
• Attested copies of Transcripts / Degree
• Attested copies of High School Certificate
• Proven proficiency in the English language (IELTS / TOEFL)
• Clear copy of the individual’s valid passport
• One recent passport-size photograph
• Current copy CV
• An application letter (details provided with the application form)
• Non-refundable administration/processing fee of BD50

All of the above should be posted to:
Ronald Joseph
RCSI Institute of Leadership
PO Box 15503
Building 2241, Road 2835, Block 228
Busaiteen, Kingdom of Bahrain

Fees:
Academic Year 2012/2013: BD5,250 per year/BD10,500 per programme

DEGREE FACTS:
This programme has been designed to develop the student’s ability as a manager and leader in healthcare. It gives the student the opportunity to learn about managing organisations and people, operations management and principles, evaluating and measuring improvement, finance and budgeting within healthcare organisations, managing quality and risk, leadership, and strategy. Students will be expected to explore their leadership skills in leading a change project in their workplace which is based on sound research evidence.

The Masters programme is delivered by the Institute of Leadership in RCSI. It is accredited by the National University of Ireland and the Royal College of Surgeons in Ireland. It is recognised by the Higher Education Council (Bahrain) and accredited by the Commission for Academic Accreditation, United Arab Emirates.

Applications are invited from all those working in the healthcare sector including doctors, managers, nurses, other clinical specialists and administrators who wish to develop and extend their knowledge and skills in the leadership and management in healthcare.

Personnel in allied health businesses such as medical supplies/equipment and pharmaceuticals may also find the programme relevant and valuable for their needs.

CAREERS:
We expect our graduates to be better able to ensure the delivery and configuration of high quality healthcare services, lead and manage change and development within their organisations and professions.

INTRODUCTION:
The Bachelor of Science in Nursing is a four year, full-time degree programme, open to school leavers and graduates who have completed an undergraduate degree in another discipline but now wish to pursue a career in Nursing. The programme aims to equip students with the appropriate knowledge, skills and attitudes to become competent and caring nurses. It also provides a strong foundation for continued personal and professional development.

ENTRY REQUIREMENTS AND FEES:
Admission to the BSc in Nursing is dependent on academic grades and qualifications, performance at a structured interview, recommendation letter(s) from school/university and English language ability.

Entry requirements are as follows:

• Completion of the science or commerce stream of the Secondary School Leaving Certificate with achievement of a cGPA of 80%+.

• Applicants are also required to pass an English Placement Test which must be taken in the university at interview stage.

(*For other academic entry requirements, please visit our website www.rcsibahrain.edu.bh or contact the admissions office admissions@rcsi-mub.com). 

*Please note: These grades are minimum entry requirements only and do not guarantee entry into the programme. Interested applicants should complete an online application form at www.rcsibahrain.edu.bh and submit the following documentation:

• School/university transcripts/certificates (applicants who do not have their final grades should submit transcripts for Grade 10/11).

• Confidential statement/letter of recommendation (completed by your School).

• Copy of your passport and CPR (if applicable)

• Personal statement.

• Two recent passport sized photographs.

Following the completion of an online application and receipt of the above essential documentation, the Admissions Department will be in contact to advise if the applicant has been shortlisted for the English exam and subsequent interview. For additional information, please visit our website at www.rcsibahrain.edu.bh or contact the Admissions Department on Email: admissions@rcsi-mub.com or Tel: + 973 1735 1450 Ext: 5555.

Fees:
Academic Year 2012/2013: US$11,630 per year (subject to change). *Bahraini Nationals may be eligible to apply to Tamkeen for sponsorship.

DEGREE FACTS:
• The programme is semesterised (8) and modularised. It commences in September each year and ends in June the following year.

• The curriculum adopts a problem-solving approach to nursing practice to enable graduates to cope with complex and diverse nursing situations.

• Medical sciences as well as social and behavioural science are integrated within the curriculum. These courses provide the necessary background to support the basic knowledge needed by competent nurses.

• The programme is delivered entirely in English.

CAREERS:
The BSc in Nursing awarded by RCSI Bahrain is internationally recognised and fulfils all the requirements of the World Health Organisation and the European Union, allowing graduates the freedom to register and practice as nurses throughout Europe and most of the developed world. Following two years of experience as a registered nurse, graduates are also eligible to apply for the MSc in Nursing at RCSI Bahrain.
ROYAL COLLEGE OF SURGEONS IN IRELAND - MEDICAL UNIVERSITY OF BAHRAIN (RCSI BAHRAIN)

PROGRAMME:

INTRODUCTION:
This level 3 Foundation (FDN) Program is designed to help you discover and demonstrate your individual abilities, that is, knowledge, practical skills, imagination and maturity of ideas and your power of critical judgment. These abilities, as they develop, will be helped by the broad based lectures and seminars on subjects common to all art and design studies. This all helps you to meet the requirement for entry onto a particular degree, or, higher diploma program. At the end of the academic year, a satisfactory completion of the course will be demonstrated both through your portfolio, final assessment grade and maturity in intellectual and critical skills. The Foundation Diploma in Art and Design is distinguished from other art and design qualifications at this level by the fostering your ability to understand how art and design disciplines can interrelate and the contemporary contexts in which they operate. The program is also distinguished by its recognition of the importance of independent thinking, organization and motivation, leading to an informed choice of progression opportunities.

ENTRY REQUIREMENTS AND FEES:
Show evidence of having successfully completed Secondary Education or its equivalent in the Kingdom of Bahrain or overseas, attested by the Ministry of Education, Kingdom of Bahrain (MoE). Show evidence of a minimum level of English language proficiency, the following are examples of internationally accredited tests of English language with the corresponding levels of proficiency required by RUW:
• IELTS overall band score of 5.5, or
• TOEFL: paper-based 513; or Computer-based 183; or Internet-based 65, or
• RUW English Placement Test overall band score of 5.5.
Tuition Fees: BHD 180 per credit.

INTRODUCTION:
This major provides you with the theoretical framework and analytical tools and techniques to handle a variety of finance, banking, and business functions. The program is designed to prepare you for financial positions with non-financial corporations, the financial services industry, energy companies, small businesses, and real estate firms. After gaining comprehensive business skills through business core courses, you may study advanced courses in three areas: Accounting, Banking & Investment, and Finance. Islamic finance is part of this curriculum. Accounting courses enables you to understand the principles of accounting and the concepts underlying the accounting methodology. The primary goal is to train you to successfully prepare Corporate Financial Statements according to the International Financial Reporting Standards (IFRS). Banking and Investment includes subjects such as commercial banking, portfolio management, derivative securities and global investments. These subjects equip you with knowledge of banking operations, managing portfolio investments, measuring risk and return of both local and international securities. You will also learn about hedging strategies and how to manage foreign currency risks of international transactions. Finance is the study of resource allocation, that is, the process, markets, institutions, and instruments that facilitate the transfer of money and wealth. Finance courses deal with the basics of finance and encompass topics such as working capital management, sources of finance and investment appraisal. Also included are the more advanced topics of risk and return, bonds and equity calculation, and financial statement analysis. This major is augmented by 18 credits in the liberal arts as part of RUW’s responsibility to prepare graduates for active participation in civic life.

ENTRY REQUIREMENTS AND FEES:
Show evidence of having successfully completed Secondary Education or its equivalent in the Kingdom of Bahrain or overseas, attested by the Ministry of Education, Kingdom of Bahrain (MoE). THE KINGDOM UNIVERSITY
Programmes Available

www.ku.edu.bh
INTRODUCTION:
The program of the B.Sc. in interior design at the Kingdom University aims to attract imaginative students from diverse study backgrounds, ages, and nationalities to build on their knowledge and skills to be professional innovators for the interior architecture of the built environment.

The program introduces an integrated design approach of interior environments, where a total environment is made up of the physical space, along with the people, furnishing, activities and relations within that space.

In stimulating studio-based educational environments, students are taught, learn, and work collaboratively to gain the design experiences of several types of interior environments, where they are supported by theoretical, historical, and technical knowledge correlated with oral, written, and visual communication skills.

The outcome of the program is creative professional interior designers. They are empowered by problem solving, critical thinking competencies, associated with futuristic thinking, self-development, and leadership attributes to meet the industry demands.

You will be resourceful in wide spectrum design fields including architectural interiors, furniture, and garden design. In addition, their conscious awareness of sustainability and socio-cultural issues are qualifying them to deal creatively with challenges of human health, lifestyles and communities’ development in Bahrain and beyond.

ENTRY REQUIREMENTS AND FEES:
Documents needed for admission:
- High school Diploma: Minimum of 60% cumulative GPA.
- Unexpired passport photo copy.
- Unexpired CPR photo copy.
- Two personal photos.
- Equivalence of the high school for the students who finished from foreign schools or their high school certificate was from outside the kingdom of Bahrain.

Students who score less than 60% could set for an entrance exam based on the result of exam, they could be admitted to the Program of required to set for an orientation.
- Required: pass a two placement tests (an exam measure your freehand skill, the other is English placement test and based on that it will determine the level that you will start with either in the foundation or your study plan).

Fees:
BD130/- per credit hour.

CAREERS:
Besides graduating marketable interior designers to be employed in governmental and private sectors and inspired by Bahrain 2030 economic vision, the program prepares, trains, and encourages them to establish your own design practice after graduation.
